CHERRY PECTORAL

For the Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of lungs. Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases, particularly incidental to childhood.

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavoured here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust, by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PREPARED AND SOLD BY J. C. AYER, DRUGGIST and CHEMIST, LOWELL, MASS.

Sold in Bangor at wholesale and retail, by INGRAHAM & FULLER, also by G. W. Emerson, A. P. Gould, G. F. Sargent, Druggists; Bucksport, G. L. Bradley & Co. Belfast, Wm. O. Poor; Ellsworth, B. Nourse; Hampden, Isaac Snow, and by the Druggists generally throughout the country.

☞Ladies waited upon by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr. John C. Warren of Boston, was given 16 years since, but will last forever:

BOSTON, January 7, 1835.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

From Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr. Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J. C. Warren, as a sufficient guaranty for all who may favor Mr. F., that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* the continues to forward them free of expense—to prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them; *matters, in general, of paramount importance in order to obtain correct specifications and claims.* The experience of sixteen year's practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 31, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

Late Commissioner of Patents.

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway,

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set-in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2d, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

HERE IS YOUR REMEDY!
HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galphin, of 70, St. Mary's Street, Weymouth, dated May 15th, 1851.

To Professor Holloway,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway,

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr W. P. England, Chemist, 13 Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr. Frederick Turner, of Penshurst, Kent, dated December 13th, 1850.

To Professor Holloway,

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Breasts
Burns

NATIONAL WHIG NOMINATIONS.
ELECTION, TUESDAY, NOV. 2, 1852.

FOR PRESIDENT,

WINFIELD SCOTT.

FOR VICE PRESIDENT,

WILLIAM A. GRAHAM

OF NORTH CAROLINA.

For Presidential Electors.

LYSANDER CUTLER, of Dexter.
ABNER COBURN, of Bloomfield.

JOHN B. BROWN, of Portland.

WILLIAM AYER, ———

☞ SEE FIRST PAGE. ☜

☞ The National Election rapidly approaches, and each day and hour confirms the ardent hope that President of the United States will be the proud title added to the honors and just rewards of Winfield Scott. Such title has not been withheld by the American people from his Army predecessors of equal rank and equal services. And it has been bestowed where the services were not equal—where a single battle, instead of a whole score of hardly-contested fields, and half the number of ably conducted negotiations, had one's name and claim to gratitude deemed equal to the exalted reward of the Presidency. It has been bestowed, when sneers and gibes followed the nomination, as sneers and ridicule have been attempted in the case of Scott. The political leaders who marshal the opposition to this crowning honor to the Hero of Chippewa and Mexico have taken no warning from the examples of Jackson, of Harrison, and of Taylor; but these examples are not forgotten by the country. They have not lost their force with our countrymen, for they are founded in the loftiest, purest sense of national gratitude. They will not fail to be perpetuated, for, with the single exception of Washington, never were the first honors of the Republic so richly deserved. The silent, but sure and effective influence of this feeling will do the good work in November. That quiet vote of the people, dictated by the sentiment of gratitude, and the just appreciation of brave skill and veteran service, which gave the Presidency to Jackson, and subsequently to Taylor, in spite of party, and above all party influences, will again be found at the polls in November. Unseen, or at least unfelt in the preliminary state and local elections, it will then assert its efficiency, and turn the mighty scale, where the adverse party least expect it, and in States which they can ill spare from their electoral column. Such are the just remarks of the New York Times.

☞ It will be seen by referring to the proceedings of the City Council, to be found in another column, that the "Valley Avenue" on the banks of the Kenduskeag stream has been laid out as a public highway. We have previously published the official papers on this subject without either advocating or opposing the plan, preferring to leave a matter of this kind to those interested in the matter and to the authorities whose duty it is to promote the public convenience and to guard the public welfare.

There is probably no better general rule than that towns and cities who mean to thrive, must provide liberally for the means of public travel—must have good common roads and plank roads and rail roads and keep up with the spirit of the times in reference to public travel, and must have an eye to increasing the facilities for manufacturing and transacting business. Bangor cannot hope to escape the application of this rule, and we judge from the improvements of the present year and the prospects for future operations, that she neither expects or intends to dodge the rule.

The subject of laying out the Valley Avenue has been very fully investigated and discussed, and we suppose therefore that the circumstances fully justify the laying out of the road, and now that it is laid out we hope it will be well made and prove as advantageous as its most sanguine friends desire.

We may take occasion here to say, that probably there never was a season in Bangor, when there were more or greater public and private improvements in building, in the cultivation of land and the planting of gardens, &c., than the present season.

These improvements are going on in almost every part of the city, and they are very encouraging, and look hopeful and strong. Men of capital are turning their attention to beautifying the city and increasing its conveniences and comforts, and all this is well and shows the faith they have in the advancement of the city, and also the right disposition to do their part in the expenditure of a portion of the capital they have acquired in the place where it was accumulated.

Melancholy Accident.

As men were engaged in blasting the ledge on Pine St. yesterday afternoon, two or three boys ran down the street towards the ledge, and were struck by the falling rocks.—One of the boys, George W. Godfrey, son of Edwin D. Godfrey Esq., merchant of this city, aged nine years, was struck on the head by a large fragment of the ledge, and he died last evening. Another boy by the name of McKinney was seriously injured in the hip, and one other boy is reported injured. The boys were so eager to see the blast, on hearing the horn blown, that they rushed on to destruction against warnings and efforts to stop them.

☞ The Democratic papers say that if the London Times is in favor of Pierce, it is equally true that the Duke of Wellington has endorsed Scott. Very differently; the Duke said that Scott was a great general, but never expressed a desire to see him made President. The London Times admits the inferiority of Pierce to Scott, but desires the election of the former, because it will be the best for British interests. There is nothing strange or inconsistent in either. The Duke of Wellington agrees with all the world in his praise of Scott's great abilities; and the Times agrees with all England in wishing to see him defeated by a man who is pledged to the policy which is for the advantage of British industry and against the interests of American industry.

CITY AFFAIRS.

For the Commissioner of Streets and Street Engineers to contract with Stetson & Co., to make the "Valley Avenue" road according to their offer made to the City Council.

Reports Accepted.

Of the Street Engineers laying out "Valley Avenue." Passed by yeas and nays, as follows: In the Board of Aldermen—Yeas, Aldermen Jewett, Wing and Randall 3. Nays, Aldermen Hatch, Fairfield and Williams, 3—the Mayor giving the casting vote in favor of the acceptance of the Report. In Common Council 15 yeas to 6 nays.

Petitions Referred.

Of Richard Persons for allowance of land taken in laying out Cram road.

Of Wm Torsey for allowance for injury received by falling through hole in sidewalk on Kenduskeag bridge.

Adj. to first Monday in November.

☞ A letter received from Michigan declares that there is every prospect of complete success to the Scott ticket in that State. Three of the most prominent Democrats in the State are now stumping it in favor of the Whig candidates, and are producing a powerful effect upon their old party.

☞ We would direct attention to the card of Mr. Leman for a benefit this evening. He has been long in his profession, and has troops of friends who would like to do him a good natured turn, and bestow a mark of their appreciation of his merits.

☞ A correspondent of the Massachusetts Life Boat states that the new liquor law has already closed 1500 liquor establishments in that city.

Great activity prevails in the French Navy Yard.

Government has completed contract with Mr. Stewart, an American, for one thousand masts of Florida Pine.

ENGLAND.

We have no political news of importance. A dinner was given at Danbury on Tuesday by the Conservatives in honor of Hon. J. W. Henley, President of the Board of Trade, Col. North, Capt. Dyre and Mr. Knightley, tory members for Oxfordshire, South Northamptonshire.

A Free Trade banquet is to be held at Manchester on the 9th proximo, at which Cobden, Bright, and all leading men of the party are to assist.

At Liverpool the liberals are organizing against the tory influence which carried the late election.

The Queen and Court are still on the Highlands of Scotland, where also Lord Hardinge, the new Commander-in-Chief is in attendance.

Earle Derby is at his seat in Lancashire. The other members of the Government are scattered here and there in the country, and Delraelli, according to Punch is shut up in Downing-st., calculating on a slate, the details of the Budget.

The papers are full of speculations on French and American affairs, quite to the exclusion of local.

It is rumored that Parliament will be summoned for business Oct. 21.

The London papers are raised against Captain Jewett's expedition to the Lobos Islands, seeing in it a deep laid scheme for the annexation of Peru.

The West India Mail Steamer, La Plata, at South Hampton on Wednesday 28th, with dates from Chagres to the 8th. Had on freight $1,714,766 of which $329,217 were on account of the Mexican dividend. The La Plata had on board three Ponies, a present from the President of Mexico to the Prince of Wales, besides some presents to the Queen, in charge of Col. Stephens.

The Times of Oct. 1st has reason to believe that the statement that Lord Elgin is to be superceded in the Governorship of Canada is unfounded or premature.

Violent gales have raged in the English and Irish Channels during the week, and have caused much destruction of shipping. The only American vessel reported in the Emporium from America, went ashore on the coast of Northumberland. Crew and passengers including three females saved.

Sir Thomas Mitchell of Australia, has brought out a new mode of propulsion for steamers. It is called the Bomerang Propeller.

McIntosh, the India Rubber Patentee, advertises a paint of Mucus Catcholic for ships' bottoms, which by lessening resistance increases the speed two knots an hour.

Wm. Craft, the Boston Fugitive, writes a long article in the Morning Advertiser, in reply to some strictures in Dickens' House Hold Words, on Slavery. It seems that among the chief patrons of Crafts and his wife in England, are Lady Byron and her daughter, Lady Lovelace.

Some wag in Philadelphia, has been sending through the mail to parties in England, unpaid letters inclosing prospectuses of the Art Union, and referring, for particulars to J. S. Gotthedevil. Some of the recipients have written to the Times about it.

The weather is cold and rainy. The Scotch and Welch mountains already exhibit a capping of snow.

FRANCE.

The public mind appears to be made up in favor of the immediate proclamation of the Empire. It is even said that Louis Napoleon will return to Paris as Emperor, and that the proclamation will be made at Tours, the ancient capitol of Touraine, on the 14th inst. His reception at Toulon, Avignon and Marseilles, was enthusiastic. He was met and congratulated by the Envoys of Piedmont, Naples, and the Pope.

The Gazette De Breslau, says that the Emperor of Austria, has demanded the hand of the Princess Vasa, and that the Emperor of Russia is using his influence to win over the same lady for Prince Adalbert of Bavaria, brother to the King of Greece. This, however, is discredited in Paris.

In laying the foundation of the new Bourse at Marseilles, Louis Napoleon said, he hoped that the prosperity of the Port would contribute towards the realization of the Emperor's grand idea, that the Mediterranean, shall be a French Lake. The idea is not disconnected in public rumor from the hint recently thrown out in a government paper, that when a few more steamers are launched, England will be called on to show by what title she holds Gibraltar and the Ionian Isles.

Two government nominees were elected in room of Cavignac and Carnot resigned.

Monseigneur Jean Antoine, Delanne, Bishop of Indianapolis, is announced among the arrivals at Paris.

Vintage is commenced in the South and in some of the vineyards in the Loire and Champagne. Prospects moderate.

BELGIUM.

The Belgium Ministry have again resigned, and the Chambers are adjourned till the 24th inst. The cause of resignation was the election of M. Delehaye over M. Verhagen, the ministerial candidate for the Presidency of the Chamber of Deputies. The event is regarded as a triumph of the French party.

SPAIN.

Government has ordered honors to be rendered to the memory of the late Duke of Wellington. Gen. Castanos, who served under Wellington, is just dead, aged 96, and will be buried.

GERMANY, &c.

The Cologne Gazette states that negotiations are in contemplation between the United States and the Zollverein, respecting a mutual reduction of import duties. It is said the U. S. government has expressed a willingness to favor the import into America, of certain articles of the Zollverein and the crisis in which the customs question has recently been placed, has alone prevented the completion of the matter.

Negotiations are opened for a Concordat between Austria and the Papal See, and ratifications of the extradition treaty between Austria and the Netherlands have been exchanged.

Speech of Gen. Scott at Dayton, Ohio.

The telegraph, on [illegible], gives an interesting account of the [illegible] receptions and welcomes accorded to General Scott on his route through Ohio. [illegible] reception at Dayton was brilliant in the ex[illegible]. The following is General Scott's reply [illegible] address of welcome by Col. Johnston, on [illegible] of the citizens of Dayton:—

Fellow Citizens of Dayton:—Had I planned a stratagem, and come among you like a thief under cover of the night, to steal away your hearts, the design would have been defeated by your illuminated windows, and the most brilliant torchlight procession I ever witnessed. (Cheers.) But I came not to steal away your hearts. I am only too happy to barter my affections for yours. (Cheers.) I cannot conceal, if I would, that I have some place in your esteem—else whence comes this night's throng—this sea of upturned speaking faces, revealed to me by the light of flaming torches and bonfires? Whence, too, this gathering of my fair countrywomen, whose beautiful faces were partially revealed to me by the torchlight as I passed? Could this assemblage have taken place, if I had not already possessed some small place in your esteem? I thank God that it is so, because it is an acknowledgment that I have done something in the cause of my country, the memory of which you are not willing should perish—something which the voices of your children may hand to another generation.

Having, then, secured your affections, as is evidenced by this display, allow me to return you mine. But why say return you mine. You have had mine long ago. I am not a stranger to the State of Ohio. I have travelled in this State before, and I am aware of the great services rendered by her sons to the Union in time of war. I know that great numbers of your brave citizens flocked to the standard of the gallant Harrison in 1812. I know how many hurried to join the army of the brave Taylor, who won battles imperishable in fame on the plains of Mexico. I know also, although the last and the least of your Generals, have had the valuable aid of your valiant citizens in many hard fought fields of battle. I recollect, also, fellow-citizens, that I stand in the town of Dayton, at the junction of the Mad and Miami rivers. I know that your District has been represented in the councils of the nation by my own particular friends; by Judge Crane, whom I knew as a member of Congress and in private life, by Mr. Schenck, now representing us in a foreign country; and, lastly, by another valued friend, Hiram Bell. These are some of the recollections which render Dayton interesting to me. Although I am not able to recognize any familiar scenes, I seem indeed to be in a magic land. This afternoon I left Cincinnati, the Queen City of the West—itself a miracle—and I now stand here in Dayton, a small village when I last beheld it, and now a great centre of civilization and wealth. If by any catastrophe, all the other cities of our country were blotted out, from this place would emanate intelligence and civilization enough to light up the whole West.

My friends, you could not well have heard the voice of the venerable gentleman, who has addressed me on your behalf. But there are several topics brought to my recollection by his remarks, to which I desire to allude. He spoke of the untarnished faith of the State of Ohio. Allow me to relate, briefly, an anecdote which that allusion has brought to my mind; and it is the first time I have ever mentioned the circumstance. Not one among you, can suspect that I ever had anything to do with the credit of the State of Ohio. Well, it is even so.

It chanced that I was in the city of London, the great money market of the world, when the first Bonds and the first Stock of the State of Ohio—issued to secure the completion of your canal, and those vast internal improvements which have raised your State to her present—

It so happened that I was at the table of one of the leading citizens of London, where I met three or four of the principal moneyed men in all Europe.—Knowing that, like other soldiers, I was not worth a cent, but thinking that I was likely to be acquainted with the resources and character of Ohio, the bankers interrogated me—or money lenders are exceedingly anxious about their securities—as to the safety of the investment, the character of the people, and the prospects of the State. I answered them that Ohio had more acres of arable land than any other territory of similar extent on the globe.

I spoke of the natural advantages which the State derived from the Ohio on the south and east, and Lake Erie on the north; of the climate, soil and productions. It was, however, an easy thing to say that the population was thrifty, enterprising and economical, but I had to prove it; So I said to them that a man travelling through the State would nowhere be without a school-house or church of God under his eye, and where these go together, good faith and public credit are inevitable. And this is a truth which cannot be too often impressed upon the mind. Without the union of education and religion, there is no faith in man, no, nor in woman either. The English capitalists replied to me: "You have said enough—we will buy the stock." They did buy it, and at a good price; and in this way I accidentally contributed some little to the success of that negotiation. This, too, must I add in confirmation of what your orator has spoken—the people of Ohio have gloriously redeemed any little pledges in behalf of their State.

The General then dwelt upon the kindness he had experienced during his present trip, and thanked the people of Dayton eloquently, for the honor they had bestowed upon him.

The King of Siam. We have mentioned the death of the King of Siam, and the coronation of his son. Soon after the event great preparations were made for burning the body of the old King, which was carried into effect in the following manner:

"A quadrangular range of buildings, 400 feet each side of the square, was erected. In the centre of that, a spacious temple, 133 feet in diameter, towered up with its nine-storied spire to a height of at least 217 feet. Four immense pillars of the wood-oil tree, each a *sen* (130 feet) long, were planted in the centre to sustain this spire. Between these rose a lesser structure, of four pillars, sustaining a lesser spire, full one hundred feet, however.—Between the four pillars of this inner structure rose the platform, and throne, on which were deposited the remains of His Majesty in a Gold urn. This throne, twenty feet square at the base, and rising twenty-two feet in a storied pyramidal form was entirely overlaid with the rich red gold of the country, of weight four *picul*s, its value $135,000. The richness of its appearance was beyond description, and all was in exquisite taste.

At each corner of the great quadrangle and midway on its sides, were lesser temples, facsimiles of the centre one, their spires but 100 feet high. The roofs and walls and spires of all were covered with an imitation of gilding made by rubbing gamboge and oil over thin sheets of an alloy of tin and lead. The gorgeousness of the coloring, the numbers and beauty of the spires and storied roofs, the profuse ornaments, hosts of poles for fire-trees the nine and twelve storied, gilded and painted *chatt* made the whole look like a scene of enchantment. Eight hundred priests were fed daily in the colonnade around the main edifice. The ceremonies were kept up for a fortnight.—For twelve days, gold and silver coins were thrown away every evening from eight lime trees, at the rate of two catties or more to a tree,—His Majesty also distributing lines and lottery tickets to his court and what Europeans might be present. Fireworks on a prodigal scale were kept up, and rope dancing, tumbling, wrestling and theatricals were constant amusements."

New Orleans, Oct. 6.

Steamer El Dorado, from Chagres arrived here to-day, bringing dates from San Francisco to Sept. 16th. The steamer Golden Gate left San Francisco for Panama with two million in gold dust.

The Mining news is favorable.

A further movement had been made by the miners against the Chinese, and a public meeting had been called at Jamestown. The steamer Columbus and S. S. Lewis had been libeled for excess of passengers.

Later dates had been received from Sandwich Islands. The epidemic at Honolulu had given a serious check to business. The Government had promulgated a reciprocity treaty with the United States.

Advices from Valparaiso report Chilian affairs promising. A new monetary system had been established, which gives great satisfaction. Government had sent $200,000 to London to purchase a steamer.

☞ It is stated that Mr. Charles Mowry, of Auburn, N. Y., has invented an arrangement by which the elasticity of compressed air can be used to propel railroad engines any distance required. The air is compressed by water power, or otherwise, and carried in a tube or pipe the whole length of the road.

Apprentice Wanted.

Wanted, immediately, at this office, an active, intelligent and healthy boy, about fifteen years of age, to learn the trade of a Printer. Liberal encouragement will be given.

Patent Agency.—Persons having business to be transacted in the way of Patents are referred to the advertisement of Samuel Cooper, Esq., in another column of this paper. We have known Mr. Cooper for many years,—as Chief Examiner at Fort Washington, as Chief Examiner in the United States Patent Office, and as a citizen,—and most cheerfully recommend him to all persons having business done in the way of his profession. For thorough knowledge of what he undertakes, and for prompt execution, he will scarcely be excelled.—*N. E. Farmer.*

BE NOT DECEIVED.

Unprincipled men and ignorant quacks have taken advantage of the great popularity and wonderful cures performed by Curtis & Perkins' Cramp and Pain Killer, and are endeavoring to palm off base imitations and counterfeits of this article. Remember the only genuine, the original Cramp and Pain Killer in the world is Curtis & Perkins', as will fully appear by their right secured for the United States, and no other person in the world is in possession of the secret of compounding the genuine article. Avoid all spurious and miserable imitations, as you may take Poison instead of Pain Killer. Purchase it only of authorized agents. Beware, you get the genuine Curtis & Perkins Cramp and Pain Killer and you will have a positively sure relief from pain and a speedy cure.
Bangor, Sept. [illegible] CURTIS & PERKINS.

The most extraordinary discovery in the world is the Great Arabian Remedy for Man and Beast.
H. G. FARRELL'S
CELEBRATED ARABIAN LINIMENT.

The beautiful and fertile region skirting the desert of Arabia, abounds with rare plants, and odiferous woods, wherein are procured those aromatic gums and balsams of which this Liniment is composed, and by whose stimulating, unctuous and penetrating properties it, when applied, is diffused through the whole nervous system, allaying the most intense pain, in a few minutes. [illegible] you will be convinced that no proprietor possesses them in so high a degree, its perfect healing qualities. Its action is prompt and effective. It penetrates the flesh to the bone, relaxes contracted cords, restores use to the limbs paralyzed for years, and where the flesh had wasted away, leaving nothing but skin and bone, excites a healthy action, causing new flesh to grow out and fill up the shrivelled parts. It restores the synovial fluid or joint water, and thus is the reason why it has been so successful in diseases of the joints. In affections of the Spine, Liver, Lungs and Kidneys, the great remedy stands before any other ever produced. For ague cake or enlargement of the spleen, it is a specific. For any Internal Inflammation you will find it gives great relief. It has no equal in the world for Rheumatism. Also cramp, swelling, numbness, weak joints, Spine and Chest, piles, wounds, chilblains, burns, sore throat, bites of insects and reptiles, earache, warts, corns, mange, and indeed nearly all diseases which require an external application, and many others, are greatly benefitted by it. Operated externally with great success in goitre, or swelled neck, Scrofula or King's Evil, Liver Complaint, nervous diseases, &c. For all diseases of Horses or Cattle, it is as effectual as in diseases of man. Will cure any case of Sweeney in existence, also, Spavin, Splint, Ringbone, Big-head, Fistula, Farcy, Poll Evil, Windgalls, Strains, Bruises, &c.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrapper.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Kincall, Oldtown. French & Hamilton, Dexter. Geo. Parcher, Ellsworth. F. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

☞ We advise all Dry Good purchasers to take a look into T. G. Stickney's spacious Store, crowded from top to bottom with every variety of Dry Goods and Carpetings. We think he must sell cheap, if he expects ever to dispose of his immense stock.

P. of F.

Purchasers of Furniture will find it for their advantage to call on H. S. Brown, No. 10 Central Street, just around the Corner of Dow's Block, and examine his new stock of Furniture, Feathers and Mattresses.

It always gives us pleasure to notice any article that confers a real benefit on the community, and it is with confidence we heartily commend Ayer's Cherry Pectoral to our readers as possessing extraordinary virtues for the cure of diseases incident to the Throat and Lungs. This may account for our frequent reference to this article, which we feel fully justified in making known to the public.—[N. Y. Tribune.

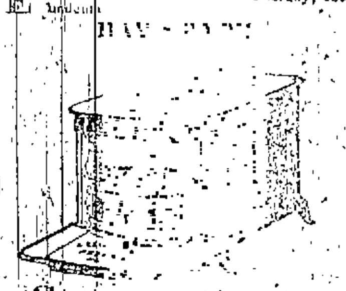
STOVE in the Market!

EXPERIENCE [illegible] torally, and [illegible]

BAY STATE



COOKING STOVE,

(For which the [illegible] is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, broiling, baking &c. &c. and in its pattern as well as in smoothness and thickness of Castings, durability and economy. The fact that more than 25000 are sold per annum is of itself proof positive of its general acceptance.

Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand.

One great advantage possessed by the Bay State over all other Stoves of whatever description, (to which attention is particularly invited,) and which enables it to bake equal to the very best brick oven, is the improved and durable and economical character of its fire plate, being of great thickness and constructed wholly of one casting, requiring less fuel than other Stoves, and baking with great evenness and expedition.—This advantage will be appreciated by all intelligent housekeepers and cooks.

The Bay State is of six sizes, and sells from $15 to $30.

THE WARRANTY!

Stoves of proving satisfactory after a fair trial of 30 days, the purchase and expense of returning will be refunded.

Great American Remedy,

FOR COLDS, COUGHS, ASTHMA, CROUP AND CONSUMPTION.

WHY, Invalids, do you almost invariably overlook the very best remedy for your complaint, in search of something with a foreign or mysterious, or crack jaw name? Half of them are made by quacks, or persons having not a tithe of the scientific and practical knowledge, either of medicines, or of the human system, of the author of the above medicine. For dry, hard coughs, and for children with severe stuffed colds, or with croup, it is invaluable; and I challenge a trial of effects with any Indian, Egyptian, Arabian, English, French, German or any other foreign or domestic preparation, which is now offered to the public for sale, in all the cases for which it is recommended. It was used by Doct Manly Hardy, its author, for many years with great success.—More than twenty thousand have tried it, and all commend it; then why look farther?

It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of Self Destruction, fear of Insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses, or evil practices. It has been said by some that these disorders, diptheria, &c., were incurable. This however is not the fact. DR. MORSE'S INVIGORATING CORDIAL, and is constantly curing these complaints, relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of the Massachusetts Insane Hospital, whilst one of his patients being cured by using this cordial, thus:—"It gives me pleasure to inform you that one of my patients, while in Boston, procured one of your Cordial. He tells me that he has not had a single emission since he commenced taking it, whereas before he had two or three a week. When he applied to me, says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased a bottle of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it whenever an opportunity occurs."

The nature of the maladies, relieved by this Cordial are generally such as to leave the publicity of certificates of course out of the question, and the proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was evidently obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended.

THE MEDICAL JOURNALS

have not, in a single instance that has been adhered to, given their sanction to any other preparation for the above complaints. It has, in many widely and desperate cases, effected radical cures, after patients had been ab[illegible], and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION!

Of those who have used this Extract—"I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different remedies) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever, of its benefiting me—but it has. I feel stronger, have had no [illegible] since, although it is not three weeks. I [illegible] satisfied the half a dozen bottles, I took, will cure [illegible]. Another says—"I had consulted several distinguished physicians. Some said I could not be cured, others prescribed this thing and that, but I found no relief till I procured some of your Cordial. I must say it completely cured me."

Another says—"I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering.

CAUTION—Ask for Dr. Morse's Cordial and take no other, as there are worthless imitations which have a [illegible] excellence, [illegible] notoriety, have been put into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials. &c.

It is put up in pint bottles, with the words Dr. Morse's Vigorating Cordial, blown on the glass. Price $3 per bottle; 2 bottles $5; 6 bottles $12; and $24 per dozen.

N. B. Important advice accompanying each bottle.
